To: Jim Phillips &lt;jim@azomite.com&gt;, Wes Emerson &lt;wes@azomite.com&gt;

Cc: Paul Baker &lt;paulbaker@utah.gov&gt;

Hi Wes &amp; Jim,

I just spoke with Jim, who indicated that it would be beneficial for him to be able to sign correspondence to the Utah Division of Oil, Gas & Mining in the place of an authorized officer of Azomite Mineral Products Inc.

Please see the attached example of an acceptable delegation of authority. We don't have a PDF form to fill out (sorry), but you could use this example as a template to create your own delegation of authority to authorize Jim Phillips (and/or any other pertinent parties) to sign correspondence and forms relating to DOGM permitting actions and activities dealing with the reclamation surety (such as requesting the release of surety). As an authorized officer listed on the state business license, Wes Emerson would need to sign and mail such a document to the Division.

Since you have two permit numbers assigned for the Trace Mine 1 - Aumco Claim mine (S/039/0001 and M/039/0029), both numbers and permit names in the delegation of authority should be included in the delegation of authority if you wish to delegate signature authority for both of the permits.

We will shortly be sending a letter to Azomite Mineral Products Inc, notifying you of the need to 1) increase reclamation surety, and 2) either submit an amendment to your existing Notice of Intent to Commence Small Mining Operations, or finish the stalled large mine permitting process in order for the Division to approve the pending Notice of Intent to Commence Large Mining Operations (consistent with the last Division correspondence in 2010, also attached). I am considering asking for these actions to be completed by early to mid September, fyi.

Please let me know you have questions.

Peter
